

MSKTD Receives Design Award for Ball State University Project

FORT WAYNE & INDIANAPOLIS, IN: MSKTD & Associates, Inc., Architects Engineers Interiors, Fort Wayne & Indianapolis, received an “Outstanding Project – Post Secondary” Award from *American School & University* magazine for their design of the **Ball State University David Letterman Communication & Media Building**, and is profiled in its November 2008 Architectural Portfolio issue, showcasing the best in school design.

The Letterman Building is a high tech, environmentally friendly (LEED silver certification), user-focused structure, which serves both students and faculty with state-of-the-art classrooms, radio studios, performance studios, surround-sound editing suites, high-definition video screening room, lecture halls, conference rooms, research labs, and offices.
